WORLD POPULATION DAY(11-07-2021)

World Population Day is observed every year on July 14. The main purpose of this day is to draw attention towards the issues arising out of rising population across the globe. India has the world's second-largest populace after China. The World Population Day is observed with the goal of highlighting the difficulties created by overpopulation and raising awareness about how overpopulation may harm the ecosystem and progress of humanity. World population day awareness by flyer and video was uploaded to various Social media platforms of IPA-SF SJCOPS chapter on 11th July 2021.

SARCOMA AWARENESS MONTH

SOFT TISSUE SARCOMA

Soft tissue sarcoma is a rare type of cancer that begins in the tissues that connect, support and surround other body structures. This includes muscle, fat, blood vessels, nerves, tendons and the lining of your joints.

BONE SARCOMA

Bone cancer can begin in any bone in the body, but it most commonly affects the pelvis or long bones in the arms and legs. It is rare, making up less than 1% of all cancers. Osteosarcoma is the most common form of bone cancer.

PSORIASIS AWARENESS MONTH - AUGUST

August is psoriasis awareness month and is used as a opportunity to educate and inform suffers on a range of topics varying from treatment cause triggers and management of the inflammatory and often irritating disease. here IPASF SICOPS CHAPTER presents a small video about psoriasis.

WORLD TUBERCULOSIS DAY(24-03-2022)

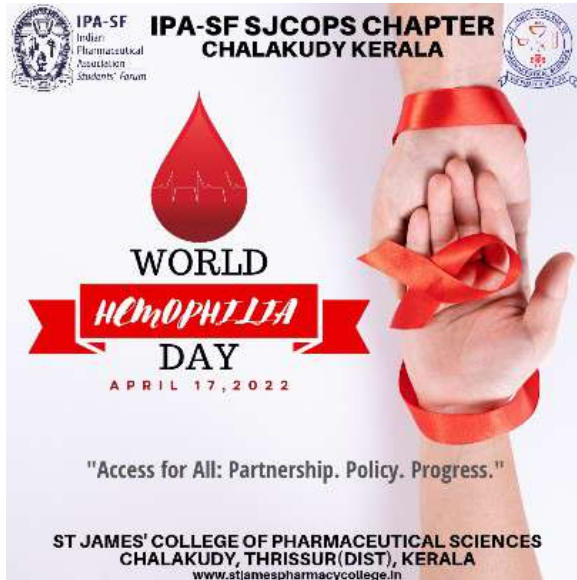

Each year, we commemorate world tuberculosis day on march 24 to raise public awareness about devastating health, social and economic consequences of tb and to step up efforts to end the global tb epidemic. The theme of world tb day 2022 –“ invest to end tb. Save lives”- conveys the urgent need to invest resources to ramp up the fight against tb and achieve the commitments to end tb. World TB day awareness by flyer was uploaded to various Social media platforms of IPA-SF SJCOPS chapter on 24th march 2022.
