SEMINAR ON GLAUCOMA
13/03/2024

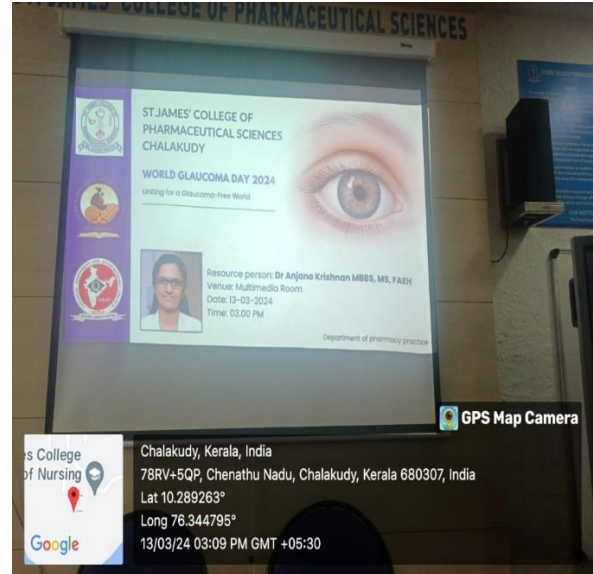

Name of the activity	Organizing unit/agency /Collaborating agency	Name of the scheme	Year of the activity	Number of students participated
Seminar on World Glaucoma Day	Department of Pharmacy Practice, SJCOPS	World Glaucoma Day	2024	60

The seminar on World Glaucoma Day was organized to raise awareness about glaucoma, a leading cause of irreversible blindness worldwide. Held on March 13th, this aimed to educate the students about glaucoma prevention, early detection, and treatment options. The seminar was conducted by Dr. Anjana Krishnan, MBBS, MS, FAEH, ophthalmologist at I Vision Eye Hospital, Chalakudy. She delivered a comprehensive presentation covering various aspects of glaucoma, including its epidemiology, pathophysiology, diagnosis, and management. The presentation included an overview of glaucoma and its impact on vision health. Common signs and symptoms, the importance of early detection, and diagnostic tests used to diagnose it, including intraocular pressure measurement, visual field testing, and optic nerve examination. Treatment options for glaucoma and strategies for managing and minimizing the risk of vision loss, such as medication adherence, lifestyle modifications, and regular follow-up appointments, were discussed. The seminar successfully achieved its objectives of raising awareness, promoting early detection, and advocating for vision health. The results of the poster-making competition were announced, and the prizes were also distributed. We extend our appreciation to the department of Pharmacy Practice for their dedication and initiative in organizing and conducting these seminars on World Glaucoma Day.
